

PATIENT PREPARATION INSTRUCTIONS FOR SINGLE OR DOUBLE CONTRAST BARIUM ENEMA (SCBE or DCBE)

PREPARATION FOR THE TEST:

- For 3 days before the appointment, the patient should follow a low-waste diet (free of bread, pasta, rice, vegetables and pulses).
- On the day before the appointment at 10.00 a.m. the patient should take 4 tablets of DULCOLAX together, and at 7 pm they should drink 2 litres of water with 4 sachets of LOVOLESSE dissolved in it.

The product will cause painless but significant diarrhoea which in the end will comprise mainly clear water. Do not take any other laxatives

ON THE DAY OF THE APPOINTMENT

The patient must fast for at least 6 hours beforehand, only coffee or tea without milk are permitted.

Notes

Patients suffering from constipation must follow the instructions below:

For the 3 days before the procedure take 1 tablet of DULCOLAX in the morning and 1 sachet of ONLIGOL in the morning and 1 in the evening, each dissolved in 250 cc of orange-flavoured Gatorade.

On the day of the test the patient must bring all their medical records that relate to the clinical problem being tested.
